

Create a modern and visually appealing presentation slide design for a project titled

"AI Website Copy Generator for Local Businesses".

Design requirements:

Background:

Dark blue/purple gradient with subtle texture Add creative elements like light bulb icons and pin/thumbtack icons - Title at top: "Task 1" - Main heading: "AI Website Copy Generator for Local Businesses" Center container with yellow border and cream/white inner box - Include sections:

1. Tools:

ChatGPT / Claude / Gemini · Lovable / Framer AI · Google Docs / MS Word · GitHub

2. Skills Gained:

Prompt engineering for web content, website copywriting, conversion-focused messaging, client requirement understanding, AI content workflows

3. Key Features:

✓ Generate homepage copy with clear value proposition ✓ Create service page descriptions tailored to business type ✓ Write strong CTA sections (contact, booking, enquiry) ✓ Adapt tone for different local businesses (salon, café, clinic, agency) ✓ Ensure content is simple, persuasive, and website-ready

4. Deliverable:

A complete AI-generated website copy set (Homepage + Services + CTA content) created using structured prompts, documented with prompt logic and outputs in a public GitHub repository. Add a "Full Task Details" clickable link/button at the bottom Use modern fonts, clean layout, vibrant colors (yellow, blue, white) Make it suitable for Canva or presentation slides
